Work History

2019 – current

Cognizant Softvision
Software Development
Full Stack Developer

Tucumán 3720

Developing Net Core 3.1 applications using Vertical Slice Architecture + CQRS. Frontend is written in React using Redux. (Client: Ernst & Young)

Implemented Authentication Server with Keycloak to provide authentication and authorization to all internal applications. OAuth 2.1 protocol + OpenIdConnect + JWT.

Migrated monolithic application written in .Net Framework 4.5 to a Microservice based architecture in .Net Core 3.x for Ernst & Young. Implemented Authentication with IdentityServer4, background processes with Hangfire and Notifications with SignalR. The frontend was written in AngularJS.

Responsibilities:

- Analyzing, designing and developing using Scrum methodology.

Technologies:

- Frontend: AngularJS, Angular 2+, React
- Backend: .NET Framework, .Net Core 2.x/3.x (C#)
- Database: MS SQL Server
- Azure: Pipelines. TFS y Git.
- Others: Keycloak. Docker

2017 – 2018

Techint (Ternium Siderar)
Software Development
Full Stack Developer

Av. Madero 942

Developed web application. Also, migrated some desktop components to web-based ones. Used ASP.NET MVC. The frontend was built using pure Javascript with KnockoutJs library.

Responsibilities:

- Analyzing, designing and developing.

Technologies:

- Frontend: Mainly in pure Javascript. Knockout.js. HTML jQuery, Ajax, Bootstrap
- Backend: .NET Framework (C#), ASP.NET MVC
- Database: SQL Server

2012 – 2012	HSM - Wobi Magazine Call Center	Echeverría 874
	Telephone sale. Management of client's invoices.	

Academic training

2014 – 2020	University of Buenos Aires Software Engineering	Av. Paseo Colón 850
2019	Czech Technical University in Prague Erasmus – Master Computer Engineering	Prague (Chequia)
2013	CBC Software Engineering	Av. San Martín 4453
2008 – 2012	Saint Brigid School (Bilingual) Commercial expert with tax and accounting specialization	Av. Gaona 2068

Diplomas / Courses

- React - The Complete Guide (incl Hooks, React Router, Redux)
 - Angular - The Complete Guide (2020 Edition)
 - Build a Backend REST API with Python & Django – Advanced
 - First Certificate Exam – Cambridge
 - Mathematical Studies – IB
 - Advance Excel – UTN
-

Talks

- [Nerdear.la](#)
 - OAuth + OpenIdConnect + JWT (Workshop)
 - [Programmers' week](#)
 - OAuth + OpenIdConnect + JWT
-
